the future is now
are we ready?

California Hospital Association presents
the 8th Annual Behavioral Health Care Symposium

December 9 – 10, 2013
Hilton Waterfront Beach Resort
Huntington Beach
Dear Colleague:

It is with great pleasure that we welcome you to the California Hospital Association’s eighth annual Behavioral Health Care Symposium.

We are very excited about the agenda for the symposium. Response to last year’s ED focus on day one was tremendous and so the first day of this year’s event will again explore new ways to care for patients with behavioral issues in the ED. Day two provides a full day of general and breakout sessions to challenge your thinking with innovative ideas and programs.

To get the most out of the program, we suggest you:

• Reach out. The symposium is the perfect time to connect with colleagues and explore ideas and strategies for patient care.

• Fill your tour card by visiting with symposium sponsors. Learn about helpful products and services that can improve patient care and operations — and maybe win a prize in the process.

• Complete the evaluation forms. Tell us what you think about the symposium or how to make it even better.

• Remember to save December 8 – 9, 2014 for next year’s event.

It is our hope that this symposium will provide you with information, tools and resources to meet the challenges and opportunities of the year to come.

Thank you for joining us,

Sheree Kruckenberg
Vice President, Behavioral Health Care Services
California Hospital Association

Elizabeth Stallings, BSN
Chief Operating Officer
John Muir Behavioral Health Center, Concord
Chair, Center for Behavioral Health Board

MONDAY, DECEMBER 9

8:00 am – 1:00 pm  Registration/Check-in  Waterfront Ballroom Foyer
8:30 – 11:30 am  Center for Behavioral Health Board Meeting  Cielo Mare
10:00 am – Noon  Pre-Conference Session: “Voices: The Documentary”  Pacific Room

Gary Tsai, MD, Emergency Psychiatrist, County of San Diego
Come early to the symposium for a special screening and discussion of “Voices: The Documentary.” “Voices” tells the real stories of three individuals from very different backgrounds, connected by their struggles with psychotic mental health conditions.

Noon – 1:00 pm  Buffet Lunch: “Competent Caring: When Mental Illness Becomes a Traumatic Event”  Pacific Room

Brent D. Longtin, RN, PMHCNS - BC, Regional Vice President, Western Region Far West; Continental; Mountain Divisions Behavioral Health Services, HCA
Join us for a viewing of NAMI’s “Competent Caring” video, a 15-minute presentation for emergency department staff that reinforces the need for compassion and respectful treatment of patients with mental illness.

1:00 – 2:00 pm  Opening Keynote: Leadership Perspectives — Health Care Policy in California  Waterfront Ballroom

Senator Darrell Steinberg, California Senate President pro Tempore and C. Duane Dauner, President/CEO, California Hospital Association
We are facing significant changes to our practice of care — with much more still to come. Listen as two of California’s most influential health policy leaders provide an update on the current legislative climate and the status of mental health policy in California.

2:00 – 2:15 pm  The ED Toolkit — Behavioral Health Resources for EDs  Waterfront Ballroom

BJ Bartleson, Vice President, Nursing and Clinical Services, California Hospital Association
Get a sneak preview of a special resource guide developed by CHA’s EMS/Trauma Committee and the Center for Behavioral Health. Designed to help staff provide support to patients in the ED with psychosis and/or substance abuse disorders, the resource guide provides access to articles, policies, management techniques, assessment tools and more.

2:15 – 3:15 pm  ED Crowding and CEDOCS: The Community Emergency Department Overcrowding Scale  Waterfront Ballroom

Steven Weiss, MD, Professor of Emergency Medicine, University of New Mexico Health Sciences Center
We all know that EDs are frequently overcrowded. But quantifying data is needed to make the case for improving service and reducing crowded conditions. In 2011, CHA’s EMS/Trauma Committee partnered with Dr. Steven Weiss to develop CEDOCS — a California-based scale to measure and rate ED crowding. Dr. Weiss will review the ED crowding literature, report on the survey findings and explain how the CEDOCS tool can help hospital EDs develop processes and procedures to accommodate increasing numbers of patients.

</tbody>
</table>
12:30 – 12:45 pm  
**Luncheon Sessions**

**LPS/5150 Transformation — A Work in Progress**  
Sheree Kruckenberg, Vice President, Behavioral Health, California Hospital Association

**Šimanek Distinguished Service Award Presentation**

1:15 – 1:30 pm  
**Break and Exhibit Viewing**

1:30 – 2:30 pm  
**Concurrent Breakout Sessions (choose one)**

**Restoring the Promise — The Role of a Community Hospital in Behavioral Healthcare**  
Michael Fitzgerald, MS, PMHCS-BC, Executive Director, Behavioral Health Services, El Camino Hospital

Hear how one hospital created innovative partnerships to fill the gaps in psychiatric services for its community. Learn about its successful after-school program for at-risk high-schoolers, which teaches mindfulness, tolerance and emotional regulation skills — and for school credit. Find out how to identify what your community needs and marshal the resources to get it done.

**Making the Case for the Psychiatric Emergency Hospitalist**  
Tom Loats, Program Director, Behavioral Health Services and Gayani DeSilva, MD, Emergency Department Psychiatrist, St. Joseph’s Hospital

How did the third busiest ED in the state create a dramatic drop in the average length of stay for patients with behavioral needs? Meet the Psychiatric Emergency Hospitalist (PEH). While most EDs are focused on medical issues, a dedicated PEH can expedite psychiatric care — and early treatment means faster recovery, better outcomes and fewer admissions.

2:30 – 3:00 pm  
**Break and Raffle Prize Drawing**

3:00 – 4:00 pm  
**Closing Keynote**

**The Community Mental Health Act — Looking Back and Forward**  
Patrick J. Kennedy, former Congressman, Rhode Island

In 1963, former President John F. Kennedy signed into law the Community Mental Health Act. Where do we stand 50 years later? Listen to former Congressman Patrick Kennedy share his thoughts on health care policy for those with mental illness, intellectual disabilities and addictions. Kennedy, son of the late Senator Ted Kennedy, has a long mental health advocacy history which includes co-sponsoring the Mental Health Parity and Addiction Equity Act.
Howard Backer, MD, MPH, FACEP is the director of the California Emergency Medical Services Authority, where he leads the department in establishing and enforcing standards for EMS personnel, coordinating with local EMS systems, overseeing the development of statewide specialty care systems, and preparing for and responding to disasters. Dr. Backer previously served for ten years at the California Department of Public Health where he held a variety of assignments, including chief of the Immunization Branch and interim director and interim state health officer.

BJ Bartleson, RN, MS, NEA-BC, is CHA’s vice president of nursing and clinical services and provides leadership in the development and implementation of CHA’s public policies in nursing and clinical specialties. Previously, Ms. Bartleson served as director of patient care services and chief nurse executive for Shriners Hospitals for Children in Sacramento. She has been active in CHA for years through her leadership role on the board of the Association of California Nurse Leaders and numerous other professional organizations.

Patricia Blaisdell is vice president for post-acute care services with the California Hospital Association. She has over 20 years of experience in hospital and health care management in acute and post-acute settings. She has particular expertise in rehabilitation and therapy services reimbursement and in clinical operations across the continuum of care. Ms. Blaisdell previously held positions with HFS Consultants, St. Mary’s Medical Center in San Francisco, Laurel Grove Hospital in Castro Valley and BayState Health Systems in Springfield, Massachusetts.

C. Duane Dauner was appointed president/CEO of the California Association of Hospitals and Health Systems (CAHHS) in November 1985. On January 1, 1996, CAHHS transformed into the California Hospital Association (CHA) and Mr. Dauner was appointed president/CEO of this new organization, as well. CHA is devoted to statewide representation and advocacy for California’s health care organizations and is one of the nation’s largest state health care associations, representing more than 400 hospitals and health systems. Mr. Dauner has been active in national hospital and health care issues, serving on numerous American Hospital Association (AHA) and American College of Healthcare Executives (ACHE) committees. He is a fellow of ACHE and has served as a member of the AHA Board of Trustees and the Hospital Research and Educational Trust Board of Trustees, an affiliate of AHA.
Gayani DeSilva, MD, is an Emergency Department hospitalist psychiatrist. In this role she works to assess and triage patients in the Emergency Department to the appropriate level of care and resources, and begin treatment as medically necessary. Dr. DeSilva strives to transform the lives of children and their families, and ultimately their communities. Her goal is not to simply to achieve symptom resolution for mental illness, but also encourages prevention and education for the manifestations of mental illness to enhance her patients’ lives and overall well-being. Much of her work has focused on the complex needs of adolescent and young adult criminal and violent offenders, and to better understand the interplay between mental illness, societal factors, and interpersonal issues.

Michael Fitzgerald has over 30 years of experience in the behavioral health field and currently serves as the executive director for Behavioral Health Services at El Camino Hospital. Mr. Fitzgerald has developed several unique mental health programs including a specialized program for teens and perinatal mothers. He is a psychiatric clinical nurse specialist by training and also lectures and writes on mental health issues. His current board memberships include the California Hospital Association Center for Behavioral Health, a regional hospital/community alliance for teens in Santa Clara County, and the American Psychiatric Nurses Association, California Chapter. Mr. Fitzgerald was recently honored with the “Hero Award” by the National Alliance for the Mentally Ill, and acknowledged as a “mover and shaker” for improving mental health services.

Amber Kemp is vice president, health care coverage with the California Hospital Association. Ms. Kemp provides advocacy and support regarding government-funded programs and other health care coverage policy issues affecting California hospitals and health systems. She has an extensive background in Medi-Cal and previously worked in the director’s office at the Department of Health Care Services (DHCS) where she managed implementing the Medi-Cal Section 1115 Waiver for the Delivery System Reform Incentive Payments (DSRIP) for designated and non-designated public hospitals. Prior to joining DHCS, she served as a special assistant to state Board of Equalization member Betty Yee.

Patrick J. Kennedy has served 16 years in the United States House of Representatives, representing Rhode Island. While in office, he distinguished himself as a leader on issues of health care, sciences, veterans, technology, civil rights and mental health. Kennedy has been a tireless advocate for access to health and advancements in medical research. He has authored and co-sponsored dozens of bills to increase the understanding and treatment of neurological and psychiatric disorders, including the National Neurotechnology Initiative Act, the Genomics and Personalized Medicine Act, the Combat PTSD Act, and the Alzheimer’s Treatment and Caregiver Support Act. Since leaving office in 2011, Patrick J. Kennedy has been devoting his efforts to promoting research in neuroscience.
SPEAKER BIOGRAPHIES

Sheree Kruckenberg has been vice president of behavioral health at CHA since 2002. In this capacity, she staffs CHA’s Center for Behavioral Health (CBH) Advisory Board. She is also responsible for hospital-based outpatient clinic (HBOC) issues and staffs CHA’s HBOC committee. Additional duties include tracking legislation for women and children’s issues and coordination of the annual California Congressional Action Program in Washington, DC.

Tom Loats has over thirty years of experience in the social work arena and more than twenty years of experience working in mental health and psychiatric services. He currently works as the director of behavioral health services for St. Joseph’s Hospital in the city of Orange and serves on the California Hospital Association Center for Behavioral Health Advisory Board. Previously, he was chair of the Joint Behavioral Health Task Force and member of the Behavioral Health Executive Committee for the Hospital Association of Southern California.

Brent Longtin has worked in the operational, clinical and consultant arenas of the behavioral health field for approximately 30 years in for-profit as well nonprofit healthcare settings. He is an advanced practice RN currently licensed in the states of Texas, Tennessee, Nevada and California. He currently works for HCA, Inc. based in Las Vegas, Nevada and has operational oversight for the HCA Behavioral Health Services in California, Alaska, Idaho, Utah, Colorado and Nevada. Brent has worked closely with nationally recognized NAMI leaders in the development of the video, Competent Caring: When Mental Illness becomes a Traumatic Event, which was a collaborative initiative by HCA and NAMI in an attempt to increase awareness and improve mental health care in the ED setting.

Anand Pandya, MD, is associate professor of Clinical Psychiatry and vice-chair of Clinical Affairs for the Department of Psychiatry and Behavioral Neurosciences at the University of Southern California. Previously, he served as vice chair and interim chair for Cedars-Sinai Medical Center psychiatry department. Dr. Pandya co-founded Disaster Psychiatry Outreach, a volunteer organization committed to alleviating suffering in the aftermath of disaster through the expertise and good will of psychiatrists. He was the first editor of Disaster Psychiatry: Intervening When Nightmares Come True which won the Kenneth Johnson Book Award and is co-editor of Disaster Psychiatry: Readiness, Evaluation and Treatment, a nominee for the British Medical Association Psychiatry Book of the Year Award for 2012. Dr. Pandya has also served as president of the National Alliance on Mental Illness (NAMI-National).
Kimberlee Roberts is an accomplished public health administrator with nearly 30 years experience in health care. Currently, Ms. Roberts is the director of Clinical Services for Scripps Memorial Hospital in La Jolla. In this role, she has administrative responsibility for multiple emergency departments, the Breast Care Center, Stevens Cancer Center, Gamma Knife, Dialysis Services, Stroke Program and project management. During her tenure at Scripps, Ms. Roberts established monthly community education programs and seminars, set up flu clinics for XIMED physicians and overhauled the billing system for outpatient clinics. She also has spearheaded the project management for the current emergency department and operating room redesign and transitioned her staff into a new hospital. Ms. Roberts is also an active member of CHA's EMS/Trauma Committee.

Senator Darrell Steinberg, the California Senate President pro Tempore, is the leader of the majority party in the California State Senate. Senator Steinberg has represented the capital city of Sacramento in the California Legislature since 1998. Steinberg has been a relentless advocate for mental health care, calling it “the under-attended issue in our time and in our society.” Heralded within the mental health community as the “most transformative figure mental health has ever seen,” Steinberg authored Proposition 63, the Mental Health Services Act, creating a one billion-dollar system for dynamic mental healthcare in California.

Gary Tsai, MD, is an emergency psychiatrist for the County of San Diego and a former APA/SAMHSA Minority Fellow. He is also the founder of Forgotten Films and the producer and co-director of "Voices", a feature-length documentary film that focuses on human and untold stories of psychosis, as well as the controversial issue of violence and severe mental illness. As the son of a mother with schizophrenia and having experienced the stigma and criminalization that often accompanies serious mental illness, he is a passionate advocate for improving our mental health systems. He believes that the interplay between media and mental health is one of our most powerful tools for changing hearts, minds and improving systems through effective messaging. Dr. Tsai’s clinical and research interests include public psychiatry, mental health policy, early intervention for severe mental illness, and cultural and forensic psychiatry.

Dr. Steven Weiss is an experienced clinician, educator and researcher in the field of Emergency Medicine. He has worked in EDs in Louisiana, New York, Tennessee, California and New Mexico. With more than 100 publications to his name, he is well known for his work in ED crowding, injury prevention and emergency medical services. In 2002, Dr. Weiss coordinated and designed the National ED Overcrowding Scale (NEDOCS) study which represented eight major academic institutions nationwide. Since that time he has been involved in numerous ED crowding studies including, most recently, the Community ED Overcrowding Scale study in California. Presently, Dr. Weiss resides in New Mexico where he is a full-tenured professor of Emergency Medicine.
Scott Zeller, MD, is chief of Psychiatric Emergency Services for the Alameda Health System in Oakland, CA, one of the busiest emergency psychiatry programs in the US. Dr. Zeller is immediate past president of the American Association for Emergency Psychiatry and author of numerous scholarly articles and book chapters. He is also co-editor of “Emergency Psychiatry: Principles and Practice,” (Lippincott, 2008), which was considered to be the first comprehensive textbook of emergency psychiatry. Dr. Zeller founded and directed Project BETA, a multi-center effort which published best practices guidelines for the evaluation and treatment of agitation in 2012. In 2009, Dr. Zeller was named Alameda County Outstanding Physician of the Year and in 2012, won the San Francisco Business Times’ “Heroes of Healthcare” award.

WHATEVER IT TAKES.

OUR ATTITUDE ISN’T JUST CAN DO... IT’S CAN DO BETTER.

We believe it’s our responsibility to do whatever it takes to deliver the finest possible medical care to the people we serve. And as an independent, nonprofit hospital, we are empowered to meet that commitment. We answer to our community rather than corporate stakeholders, so we can keep investing in the health of our patients. We attract some of the world’s finest medical professionals in cardiovascular care, cancer, orthopedics, behavioral health, women’s and men’s health, emergency services, and more. These experts collaborate to provide care that is truly above and beyond. We have recently been recognized by Healthgrades® with the 2013 Distinguished Hospital Award for Clinical Excellence™, and we work hard to live up to that standard for every patient, every day.

For more information on our programs and services, or for physician referral, call today or visit our website.

Janssen Pharmaceuticals, Inc.

Janssen Pharmaceuticals, Inc., a pharmaceutical company of Johnson & Johnson, provides medicines for an array of health concerns in several therapeutic areas, including: attention deficit hyperactivity disorder (ADHD), general medicine (acid reflux disease, infectious diseases), mental health (bipolar I disorder, schizophrenia), neurologics (Alzheimer’s disease, epilepsy, migraine prevention and treatment), pain management and women’s health.

Our ultimate goal is to help people live healthy lives. We have produced and marketed many first-in-class prescription medications and are poised to serve the broad needs of the health care market — from patients to practitioners, from clinics to hospitals.

Headquartered in Titusville, New Jersey, Janssen is named after Dr. Paul Janssen, a leading Belgian researcher, pharmacologist and general practitioner. Dr. Janssen led a group of researchers to discover a medicine that helped change the way mental health patients were treated. His company, Janssen Pharmaceuticals, joined the Johnson & Johnson family of companies in 1961. Our company remains guided by Dr. Janssen’s values of excellence and innovation.

Illness happens

Neuropsychiatric illnesses and pain can devastate families, friendships and patients’ lives.

As the Janssen Pharmaceutical Companies of Johnson & Johnson, we are committed to developing innovative solutions for the most important medical needs of our time.

Over the past 50 years we have brought to market paradigm-changing treatments for addressing needs in schizophrenia, bipolar disorder, Alzheimer’s dementia, and severe pain. Our work to help patients, families and communities affected by these illnesses continues. Our vision is to transform and enrich patients’ lives by raising global standards of care. At Janssen, we are passionately pursuing science for the benefit of patients.

Crisis Prevention Institute (CPI)

CPI is an international training organization, committed to providing you with safe behavior intervention methods that focus on prevention. Our Nonviolent Crisis Intervention® training program and its comprehensive resources are designed to equip you and your staff with effective skills for safely managing disruptive and assaultive behavior. The program meets regulatory/accreditation standards, and can be tailored to the unique needs of your hospital.

www.crisisprevention.com

Kendra Stea, Director, Client Services
(800) 558-8976, info@crisisprevention.com
REDUCE THE RISKS ASSOCIATED WITH WORKPLACE VIOLENCE

CPI's Nonviolent Crisis Intervention® training is the worldwide standard in crisis prevention and intervention training. Our person-centered approach helps you take control of an out-of-control situation by focusing on prevention. Your team is equipped with the skills and confidence to have an immediate, tangible, and lasting positive impact on the people and the organizations they serve.

For more than eight million human service professionals who have participated, including tens of thousands of behavioral health care providers, there's simply no more proven effective approach to managing and preventing difficult behavior.

Our training program also offers an advanced course on trauma-informed care that aligns with the principles of resilience and recovery.

We invite you to visit crisisprevention.com/california to access free resources that will help you reduce workplace violence. You'll find informative blogs, webinars, eBooks, and eNewsletters filled with actionable tips, strategies, and insights you can use immediately to create and maintain a safer care environment.

Pinpoint, Inc.

Pinpoint provides personal alarm systems for staff of hospitals, behavioral health centers, and anywhere that employees may encounter aggression. Think of it as a call button that you wear. Just push a button, or pull the knob, and the INSTANTalarm signal pinpoints your exact location and summons help. No hollering, no whistles, no looking for a button on a wall between you and an aggressor. The system has two levels of call, which allows you to call for assistance before an incident escalates into a full emergency situation.

www.pinpointinc.com

David Bivin, Vice President, Sales
(205) 585-5784, david.bivin@pinpointinc.com
Nurses feel SAFER with an INSTANTalarm System installed.

“I have seen an amazing change in staff perception of safety along with a corresponding decrease in staff injuries and aggressive incidents since using the INSTANTalarm.”

Linda, Nurse manager, Adult Behavioral Unit

“I wouldn’t work anywhere else unless INSTANT alarm was installed.”

Tricia, Head of Nursing, Emergency Department

“Our INSTANTalarm system allows us to discreetly call for immediate help or assistance and it pinpoints our exact location. It has really given staff peace of mind.”

Misty, Program Director, Transition Centre

“I believe that INSTANT alarm is actually a deterrent to patient aggression. The patients know that we can get help when we need it.”

Tony, Behavioral Specialist

“I honestly feel that all psychiatric units would benefit from the INSTANTalarm. So easy to use.”

Shannon, Youth Counselor, Adolescent Unit

We’d appreciate meeting you at Booth #212 to discuss your needs and show you what an INSTANT ALARM 5000 could do for you.
