

Sterile Compounding Pharmacies: Guidance for Implementing Regulatory Changes Webinar

Tuesday, April 17, 2018
10:00 – 11:30 a.m., Pacific Time

In January 2017, the California Board of Pharmacy set new regulatory requirements for hospitals performing sterile compounding. Last year's sterile compounding webinar addressed both the "what" and "why" of this new regulation, including application for a waiver. This webinar will go beyond the waiver and provide information on "how" to navigate the processes of each regulatory agency in order to meet the regulatory requirements.

Experts from California's Board of Pharmacy, Office of Statewide Health Planning and Development (OSHPD) Facilities Development Division and the Department of Public Health (CDPH) Licensing and Survey Program will discuss steps to achieve approvals at the various agencies, and share common pitfalls that hinder compliance with the new requirements.

Recommended for

Chief operating officers, chief compliance officers, chief pharmacists, plant managers, construction directors and managers, architects and engineers, inspectors of record.
