- Physician Relationship Compliance Issues — including fair market valuations and Stark updates

- Pharmacy Compliance — essentials from the Compliance Officer perspective

- Medicare Policy Updates — including revised conditions of participation and the proposed appeals rule

- Data Mining — how big data can be leveraged as a compliance, and enforcement, tool

- Telehealth — identifying problem spots and preparing for more detailed oversight

- Opioid Abuse — new prescribing provisions, and more

- Consent and Privacy — going back to basics to analyze murky situations

- Trends and Court Cases – False Claims Act cases in a post-Escobar environment, enforcement trends, and more

Stay ahead of the curve and learn where trends are leading this complicated area of the law.
