

MESSAGE FROM THE PRESIDENTS

We are pleased to present the 2017 edition of the *Membership Directory*, which includes a comprehensive listing of member hospitals and health systems throughout California.

In 2016, CHA and the Regional Associations helped shape policies through a unified voice on health care issues important to California hospitals and patients. With grassroots support from hospitals, constituency groups and others, the associations achieved important legislative, regulatory and legal successes at the federal, state and local levels.

In the new 2017 political environment, we will continue our efforts to maintain and improve access to safe, high-quality, cost-effective health services for all Californians. Among our top priorities is continuing to lead through public policy and advocacy on such issues as promoting transformation in health care delivery. Other high priorities include the financial viability of hospitals, supporting whole-person care, quality and patient safety, strengthening health care infrastructure and workforce, behavioral health and emergency services.

We appreciate our members' commitment to providing high-quality care to patients and their communities, as well as your steadfast support of our statewide and local advocacy programs. We look forward to working with you toward our vision of an "optimally healthy society."

Annual Member Survey and Data

Each year, the associations survey all member hospitals. The information collected is used to update our membership data base and produce this directory. The data for the licensed beds listed in this directory were taken from the 2014-2015 Hospital Annual Financial Disclosure (HAFD) Report submitted by hospitals, for each fiscal year end, to the Office of Statewide Health Planning and Development. In some instances, hospitals notified us that significant changes to the bed data had occurred and therefore we updated our records to reflect this new information. Every effort has been made to ensure the accuracy of the data presented here.

Data Updates

Members are encouraged to contact us at any time as staff and other changes occur. Changes can be submitted to the Regional Vice President for your hospital or to HASC Membership Services, (213) 538-0700 or membership_services@hasc.org.
